## ACCESS SERVICE

8. Digital Subscriber Line Access Service (Cont'd)8.1 Asymmetric Digital Subscriber Line (ADSL) Access Service (Cont'd)8.1.5 Rate Regulations

This section contains the regulations governing the rates and charges that apply for ADSL Access Service. The rates for ADSL Access Service will be billed to the subscriber of the local exchange service.

## (A) Minimum Period

The minimum period for which ADSL Access Service is provided to a customer and for which charges are applicable is one month.

## (B) Temporary Suspension of Service

When an ADSL Access Service customer temporarily suspends its local exchange service, the ADSL Access Service will be temporarily suspended for the time period that the associated local exchange service is suspended.

## (C) Rate Categories

There are two types of rates and charges applicable to ADSL Access Service. These are a monthly rate and a nonrecurring charge. The monthly rate applies each month or fraction thereof for each local exchange service line equipped with ADSL Access Service. A nonrecurring charge applies per ADSL service element as specified in Section 17.4.8 following.

8.1.6 Service Options

ADSL Access Service is available to customers in three service level packages, and is based on the "downstream" and "upstream" speeds chosen by the customer. A customer may select from multiple packages; however, the downstream and upstream speeds may not be substituted within a service level, as the packages are defined by the downstream and upstream speeds.

	<u>Downstream</u>	<u>Upstream</u>	
*ADSL Option 1	768 Kbps	128 Kbps	(T)
*ADSL Option 2	1536 Kbps	256 Kbps	(T)
ADSL Option 3	1536 Kbps	768 Kbps	(C)

Data speeds set forth above are peak speeds. Actual speeds may be affected by loop distance and other factors are, therefore, not guaranteed.

\* ALLTEL Carolina and ALLTEL South Carolina offer the speeds of ADSL Option 2 at the ADSL Option 1 rates because the ADSL Option 1 speeds are not available for these two companies. (N)
